JD Approved Vaccinates	Sheep are not JD Approved Vaccinates.			
Other JD Management	No			
Other Health Information	No			
Vendor Comments	Complete flock dispersal, high index rams have always been selected for their superfine wool quality and worm resistance. History has shown these lambs should cut approximately in the low 15um wool.			
Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.			
	Quality Grades		Wrinkle Score	
	Very Good	100%	Plain	100%
Assessor Comments	Buyers, our vendor has presented for sale an excellent line of superfine wool mix sex Merino lambs for your consideration. These lambs have proven themselves in the past to cut in the low 15 micron wool and sales have topped the Elders sale for Queensland on numerous occasions. With the recent rains across the eastern states, these lambs would suit a trade job for the wool and to grow out on improved pasture or crop as they offer plenty of compensatory gain. Alternatively, the ewe portion of these lambs can be held onto for their pedigree for a superfine operation for restocking. Breeding rams have been hand selected by a well renowned sheep classer in the New England for their superfine qualities along with high index and worm resistance. Complete herd dispersal due to a change in operations, vendor also has 4 other lots in the Tuesday National Sheep Sale for your consideration to maximize trucking efficiency.			
Assessor	Ben Hammond (Level 3 Accredited)
