Assessor Comments	Buyers, on offer is a good line of 215 x Spring 2024 Drop Merino Wether Lambs. Typically lambs are sold at heavier specifications however are offered for sale due to needing to make room for upcoming lambing ewes. This group of lambs have performed well on grazing oats and display a good frame to add compensatory gain. A 25% tail was removed at assessment. The lambs present in store to forward condition. All lambs individually weighed between 35kg and 51kg full. Bred from high performance Merignee sires selected for high quality wools and structural conformation. Lambs are trained to grain feeders however are currently not on grain. Healthy lambs that present an excellent opportunity to finish as lambs or retain as wool cutters. Purchase with confidence as lambs are bred within a closed flock whereby only rams are introduced to the property. For more information, please contact.
