	Vaccinated	01/07/2025	Glanvac 6in1	Second Dose
Health Declaration	A National Sheep Health Declaration will be provided at Delivery			
JD Approved Vaccinates	Sheep are not JD Approved Vaccinates.			
Vendor Comments	These are the later drops of our XB lambs and due to the current season we have decided to off load a small percentage to reduce feeding requirements.			
Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.			
Assessor Comments	These lambs are a credit to the vendor in how they have been prepared for sale in the year we have had in the mallee. The use of quality genetics to breed 1st cross ewes is evident along with further genetic gains from quality White Suffolk rams from Wingamin and Harrys Well puts these lambs in a great position to continue to move forward to heavy export weights which is a common occurrence year in - year out for the vendor. Normally all XB lambs are carried through, but due to the seasonal conditions a portion has been drafted out to focus remaining feed toward breeding stock.			
Assessor	Curly Golding (Level 1 Accredited) Parallel Assessed By : Matthew Leigh
