Assessor Comments	offering a total of 1200 2 x run out the gate of 600 first class ewe lambs presenting on the bloom a exceptional line of future breeders, ready to be joined. Averaging 50 kg at assessment the majority weight group of 46kg-56 kg with good % +56kg-63kg Karbullah blood & SRS & RWS accredited. Buyers These lambs are from a very fertile line of plain poll merino ewes. Maiden ewes in this flock consistently produce 105 to 110% of lambs each year unscanned and the older ewes can produce 125 to 130% unscanned and are exceptional mothers. The flock is shorn every six months. The 2yo sheep at 6 months consistently produce 65mm of 18.6 micron wool with 64 neutrons of strength while the lamb producing ewes cut between 65mm to 70mm on average of 19 to 20 micron wool. There is a heavy emphasis on wec (worm egg count) in this flock which makes them somewhat worm resistant there is also a heavy emphasis on fertility, frame and eye muscle depth. These ewes would be a great asset to any flock.
