| Assessor Comments            | A complete drop of 2nd x lambs. This draft of lambs does have a big spread in weights and variance of size but due to the small number will be sold as a complete drop. Lambs are still running on mother but visually look to be self weaned. Lambs need a drench and a fresh paddock and would hit leaps and bounds. Realistic reserve.                                                    |            |          |            |
