Assessor Comments	A great chance to secure a line of Merino wether lambs that are normally retained by the vendor. These lambs are in excellent health and have plenty of potential to keep moving forward with feed. Well-grown and well-bred, they will develop into medium to large frame sheep and are expected to cut around 6kg of 19.5 micron wool on average. Ideal for store buyers looking to feed on, or producers wanting to increase flock numbers with dependable, productive young sheep.
