Vendor Comments	First time selling our xb lambs as stores, only doing so to make way for ewes. Lambs have really bounced ahead over the last few weeks.			
Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.			
Assessor Comments	Very well bred, high performance lambs from a highly regarded producer that are well on the do. The lead draft of 1200 lambs, these are a quality article that normally are sold as 24-25kg kill lambs in the Spring. Fresh and spritely, I'd expect them to go right ahead and turn into excellent kill lambs in a matter of weeks, given the right feed and conditions. A percentage of the lambs have a had a touch up with photosynthesis from cow-pea aphid but are well on the mend, with a noticeable improvement from when I last saw them in the yards 11 days prior to assessment. I would buy them with confidence that it won't affect performance. Please see photos/videos and note this assessment was done in wet conditions! All lambs weighed through the auto drafter at 33 - 51 kg.
