Vendor Comments	Reluctant sale of the surplus ewe portion of our self replacing merino flock. Only selling due to dry seasonal conditions and the lack of Agistment available.
Joining Details	Station Mated ram(s) put in: 17/03/2025 ram(s) taken out: 02/05/2025 (47 days) Ram Breed(s): White Suffolk at 2.0% Rams To the vendors best knowledge, this lot has had no access to rams or stags aside from stated joining period.
Preg Scanned?	Yes, this lot was pregnancy scanned, by ME & TA Connolly Scanning (Non-Vet Contractor on 18/06/2025). 100 % Scanned in Lamb, from 4.5 to 4.5 months (at time of assessment 31/07/2025).
Assessor Comments	An excellent opportunity to aquire a tightly held breeding line of Belswick genetics Merino ewes. Vendor bred, these ewes are retained annually as a surplus line to the main self-replacing Merino flock and are joined to terminals to supply xb lambs for feedlotting; generally topping Wagga sale every year for export weight lambs. Sisters of these ewes have placed first in Condo, Lake Cargelligo and West Wyalong maiden Ewe competitions in recent years. Scanned at 162% to Tarella W/S (drys not included) to commence lambing 19th August for 6-7 weeks. March shorn, full 6 in 1 vaccinations plus a ewe guard every year at crutching. Drenched if required, seasonally. Bright, bulky and stylish wool cutters. An ideal line for someone to join annually to terminals or class and join to a Merino as a starter flock. A regretful sale by vendor, only selling due to seasonal conditions and lack of agistment availability for rising ewe hoggets. Buyers: fit to load standards apply for late term preg.
