Notable Traits	Traits
3 Head	Undershot - in the sample

Assessor Comments	Wether lambs & hoggets - on the move with the top season. Top quality Well Gully genetics producing a true dual purpose heavy wool cutting sheep and carcass. Bare breached genetics - no mulesing and grown under the RWS guidelines. From a well known local breeding flock that produce wool growing wether replacements always keenly sought after by local wool producers delivering a heavy weight older wether cutting good stylish wool. Top grade rams are used at Acacia Downs. 85% Medium frame, 10% larger & 5% smaller frame. Acacia Downs is typically soft rolling Mitchell Grass downs country with Prickly Acacia trees, no pebble or harder areas. The latter part of 2024 was very tough - the sheep are really moving ahead well and hitting their straps now with the better seasonal conditions.
