Other Joining Details	Joined to Wellingrove Border Leicester Rams and scanned at 161%
Assessor Comments	350 very well presented Haddon Rig blood merino ewes, scanned in lamb to wellingrove Border Leicester Rams at 161%. In the scanners opinion all ewes joined early and are around the 100 day mark. These young ewes present a great opportunity to purchase some renowned western merino genetics. A very tight lambing and the abillity to sell a first cross lamb within this calendar year given the right conditions makes these ewes a very attractive article to purchase.
