Assessor Comments	217 Future Breeder Ewe Hoggets that are in a forward condition and have really started to grow into their frame since shearing. These ewes show a nice deep plain body with good carcase traits while also producing a nice white wool cut. The Ewes will grow into a nice medium to large framed ewe. Ewes come back with wool tests of 18.1micron and at 61%yeild. Ewes will fit into any merino breeding operation while also making a very good ewe for any XB operation. A tail has been removed and ewes have presented well in the trying Mallee conditions this year. Note other ewes in the same area on offer.
