Assessor Comments	180 Future Breeder Ewe Lamb/Hoggets that are presenting in a forward condition. This line was purchased as a Complete Drop of Ewe lambs from the SA Mallee. They show a nice deep frame with plenty of stretch, while having good structures and bone.. They have a nice start in the wool and are known for their nice white wool and cutting plenty of wool. Show these lamb/hoggets some green feed and they will continue to grow into a large framed Poll Merino Ewe. This line will fit into any Merino breeding operation and or any farming operation. 20% of the Mob got mouthed with a good portion still having lambs teeth. Vendor had planed to keep them, but have decided to move them on due to trying conditions the Mallee are still facing. A tail has been removed and dirty ones will be crutched on delivery. Note other lines of lambs and ewes in the area.
