| Assessor Comments                     | A very nice line of lambs that would be ideal to fatten either into the domestic or export market. The lambs are showing good signs of being early maturing and high yielding. Please note: lambs were not weaned at time of assessment, however their mothers are to be sold prior to sale, so lambs will be without their mothers 5 days prior to sale. A very ideal line of lambs for the short or long term trade. |            |               |            |
