Assessor Comments	A line of very fresh well-bred young lambs still on their mothers. These lambs were born into a very tough autumn but are really hitting their straps right now as they are running on a lucerne and oat-based pastures. They are sired by Vortex Charolais sires and display all the very positive traits of the Charolais breed being muscle and growth for age with a excellent high yielding carcass. Once finished they could suit both the supermarket and heavy export markets into the late spring or Christmas period.
