Assessor Comments	A line of weaned young store lambs which are going forward since being weaned. They were born into a very tough autumn and were fed wheat on their mothers until weaning. These lambs are sired by sires selected for their potential to finish fast once introduced to high quality feed be it based on high performing pasture or a specialised grain finishing system. They would make fantastic heavy supermarket lambs into the promising late spring markets. Please note there is a further 300 of the second draft of these lambs also in this sale.
