Assessor Comments	A handy run of Dorper store lambs for your competition. These lambs will go well forward if shown some fresh feed. Ideally suit to go onto crops and charge towards the spring. Having been running on Western Mulga and frosted Buffel country they should adapt and respond very well to some softer, fresher feed. Three ram lambs were removed at assessment. While it is unlikely at this age and weight that they would have caused any pregnancies, no guarantees can be given.
