Assessor Comments	Buyers, on offer is an excellent line of 215 Dorset X BL/Merino Lambs, representing the lead draft of the vendor's annual turn-off. These April/May 2025 drop lambs are sired by Goorama and Springwaters rams. Rams are annually selected on natural shape and IMF data. These lambs exhibit all the characteristics of quality breeding and are showing excellent shape and bone. Lambs have been weaned for 4 weeks and are trained to grain, currently running on grazing oats with supplementary grain (barley) feeders. All lambs are individually weighed into a tight weight range above 32kg up to 42kg at assessment and present in a fresh store to forward-store condition. Upon delivery, lambs will be market crutched to ensure buyer satisfaction. Ideal lambs to take onto heavier specifications. For further information, please contact.
