| Vendor Comments                       | Our complete drop of our wether lambs with a small tail removed. Bred from large frame Merino ewes. Very happy with the Lambs considering it one of the toughest seasons on record.                                                                                                                                                                                                          |            |                       |             |
| Assessor Comments                     | Merino whether Lambs on that have performed well considering the tough season. This is the vendor complete drop with a small tail removed. They are on a full grain ration and ready to grow out to export weights. Please note. The lambs are back running in 3 mobs for ease of management. We sampled weighed each mob and will sell in one line.                                         |            |                       |             |
