Health Declaration	A National Sheep Health Declaration will be provided at Delivery AT BUYER REQUEST			
JD Approved Vaccinates	Sheep are not JD Approved Vaccinates.			
Vendor Comments	These are part of a normal turnoff. In the sample handled noted 3 with horns (about 3 inches long) and 5 with red colouring on the head (could be a genetic imperfection).			
Assessor Comments	Buyers, here is an excellent opportunity to purchase a large offering of Dorper wether lambs from the mighty "Terrick" flock, one of the largest and extremely well run Dorper operations anywhere in Qld. These are all out of Burrawang blood ewes with rams accessed from their company owned Burrawang Dorper stud that provide top genetics annually to their large breeding flock. These lambs presented fresh and lively and should continue to bounce ahead if they get access to nice fresh herbage further south. These have their foot on the till and will suit to either top up on herbage to heavier slaughter weights or to keep peeling the tops out and put on grain to top them off quicker. Still young, plenty of time to get them there. There are 2,400 all up in this line that are being offered in three even runs of 800 head.
