Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.			
Assessor Comments	An even line of Poll Dorset & White Suffolk sired lambs that have been weaned 6 weeks and are moving forward since having a tight start to life season wise. Lambs have been drenched and crutched in the last 10 days. All lambs have been individually weighed 35 kgs plus at assessment to a top 51 kgs. The Wardlaws have always taken their stock through to kill weights but this year due to tough seasonal conditions weaned early and have decided to sell as stores. Lambs would have been fed grain on mum but haven't had any grain since weaning. Nice 2 decks of lambs that will perform all the way through.
