| Assessor Comments        | Complete drop of Mo Wth Lms with a tail removed, these lambs have the reputation of growing in to very good trade weight lambs. In an ideal year the vendor would shear them and carry them through the stubbles but this year has decided to part with them early to save feed for ewes.                                                                                                    |
