Assessor Comments	On offer is a top quality line of 860 one mark NSL that represents the lead of their drop. This line will be offered as 2 run out the gate lots of 430 head. Lambs were weighed 40kgs+ LW. They present evenly and are an article that will not take long to get over the tryline as they are right up on the job weight wise and have the breeding in them to perform well on quality feed. Past purchasers have been very happy with the performance of these lambs and vendors have reluctantly put this line on the market rather than finishing off themselves. Lambs are sired by high indexing Valley Vista Poll Dorsets and The Willows Prime Genetics rams and are out of plain bodied ewes. Buyers make note that there are a small percentage of lambs that are daggy but no lambs will be crutched prior to delivery. Also while all lambs were individually weighed, they were bulk fat scored. lambs come highly recommended and there is an entire drop offered in todays sale across various weight groups.
