| Assessor Comments      | Lead draft of unclassified wether lambs. Lambs are out of a heavily classed ewe flock of Grassy Creek blood focusing on bright productive wools. Wethers will continue to mature into medium to large frame wethers if given the opportunity. A 20% tail was removed at assessment based on weight and type. Wethers lambs are mulesed and Gudair vaccinated. Wethers have performed very well in the 'Bookham Wether trail'. Good quality wool growing wethers. |            |              |            |
