Returned same

Introduced Sheep

Footrot

Rams Only have been introduced onto the consignment property in the last 5 years

All consigned sheep are from a flock that is free of Virulent Footrot

Consigned sheep are from a flock that is NOT free of Benign Footrot or Scald

Further Information: As is common in southwest Victoria, scald can be present when conditions are conducive in late winter and spring. No scald noted at assessment and no lame lambs will be delivered. The Meekri flock is very sound and management very good.

Feet were not inspected at assessment

Lice	All consigned sheep are from a flock that is free of Lice

Other JD Management	All replacements ewes have been OJD vaccinated for the past 10 years.			

Assessor Comments Offering 300 Cashmore Oaklea blood composite wether lambs presenting in fresh condition and representing the lead draft of the composite wether lambs on Meekri. Lambs are very healthy, show good weight for age, are sired by high indexing Cashmore Oaklea rams and bred from Cashmore Oaklea blood composite ewes. They have had their first 6-in-1 vaccine and a mineral drench and are running on the ewes in a high quality pasture paddock with the expectation they will continue to improve. A terrific opportunity to acquire healthy, later drop lambs with the breeding, capacity & previous purchaser feedback to finish to trade and export weights into any market required.
