Assessor Comments	Offering a larger line of well bred, well grown young lambs, one mark, account the breeder. Ideal lambs to suit many options due to their quality and weight. Enough for a decent line of future breeders with most of the wether portion heavy enough to feed or finish on crop or pasture. These are the tops out of 870 so a large tail taken out. Weighing 41.5 average after overnight lockup they are well grown for their age. Approx 30 lambs were born early and they have more of a White Suffolk influence, and are the heavier lambs. These are some of the better lambs we get the privilege to assess each year. Good management and good genetics make the job a lot easier. The lambs will be running with their mothers until delivery. Purchasers may need to be flexible with delivery dates in the event of rain as the property is on heavy black soil. Vendor will load 6 decks comfortably.
