| Assessor Comments            | A great run of 200 xb lambs, on the move. These lambs have had a Glanery4 B12 and a weanerguard. Currently running on improved clover and grass pastures. They have been crutched ready to move ahead. All lambs weighed at a minimum of 25kg at assessment. A neat run of M/A drop lambs, bred from quality White Suffolk genetics over med/large frame poll merino ewes. They will grow on to exceptional export weight lambs when shown the right conditions. |            |              |             |
