Assessor Comments	A line of store to forward store Dorper and Dorper/Ultra White cross mixed sex lambs in store to forward store condition, the lambs have been yard weaned on hay and the lead are ready to go into a feedlot to finish off, the male portion had rings put on them a day before assessing, this will probably slow their progress for a bit. The ewe portion will be suitable for feed operation or future breeders. There are approx 145 black tags lambs which were mouthed and all had milk teeth, 50% of the white tag lambs were mouthed and all had milk teeth, the white tag lambs were vaccinated with 5 in 1 at marking. This is one lot of two lots of the same lambs in this sale which will be loaded as they run out the gate.
