Assessor Comments	390 Merino wether lambs that are only being offered due to the tight season. Lambs were getting trail fed barley until 4 weeks prior to assessment. They are August drop & of the 18 lambs that were mouthed at assessment, no lambs showed any signs of cutting teeth, allowing plenty of time for feed lotters to get them up to kill weights. They are also unmulesed & RWS accredited for people wanting to keep them on as future wool growers. Sired by Coddington Poll & Connewarren rams. The Tiverton Merino flock averages 17.8 micron.
