Assessor Comments	Flock dispersal. This is the complete line of retained breeders from this drop. With a focus on selecting rams for frame, wool type and fleece weight, these ewes fill bales. Being bred in QLD they may not have the size of their southern sisters but be assured of the breeding. With full sisters being bred in Pastoral NSW and being of large frame and cutting up to 7.5kg of 20 micron fleece. Be assured that these are very good ewes with the ability to produce. Being sold as 2 lines of 610 as a run out the gate.
