Assessor Comments	330 Merino ewes. May/June 2020 drop.March shorn(crutched). Ewes drafted into an even line then 20% weighed for an average 70 kg. weight range was 61 to 90 kg.Curfewd weight. Impressive weight considering lambs weaned in the last month & would describe ewes as 70% store & 30% forward store. Ewes scanned in lamb & wet & dried each year so no non performers in this mob. Ewes are large framed , heavy cutting sheep with a great rebate on their back(March shorn). 40 mouthed and all excellent. Realistic reserve for renowned Riverina ewes.
