Assessor Comments	A complete drop of 2024 March/April drop Triggervale Merino ewe hoggets. Ewes present in strong forward condition to average 63.2kg at assessment after a 12-hour curfew, with the majority if the flock being fat score 3. This flock has been closed for over 60 years, with the vendor purchasing Triggervale genetics for the past 35 years, ensuring consistency and quality. These are an excellent article, with plenty of frame and bloom, and represent the vendor's first offering of maiden ewes normally retained as breeders within the flock. Being sold due to a reduction in numbers, this line presents an opportunity to secure genuine Triggervale Merino ewes with proven breeding behind them.
