Assessor Comments	Offering 565 quality Merino ewes. The ewes were 56.9kg live at assessment and are in strong condition currently going forward. The ewes were shorn three weeks ago and are all genuine breeders that recently weaned 134% of lambs. These ewes are bred from a well managed Well Gully bloodline flock that has been selecting top quality grade rams for many years. The ewes are a tidy line of productive breeders that are only being sold to make room for younger breeding stock and have been strictly scanned and wet and dried each year with no second chances given. This mob of ewes are ready to join to the ram of your choice and are proven fertile breeders. Please note there were 3 ewes sighted with longer toes common for ewes of that age on downs country, 6 sighted missing one ear and a few with light ear scale.
