Assessor Comments	Offering a b-double load 590 head to be sold in 2 lots of 295 head and delivered as run out the gate. Annual offering of the Humewood bred Bluebush Poll Merino blood (some Aloeburn Poll Merino infusion) NSM maiden merino ewes. They are plain bodied, large frame and typical western bred ewes in perfect joining condition being not over done and having the maturity for an immediate joining. A small tail (8%) was removed at assessment. These ewes feature in the Hay breeders sale annually with this line held back to utilise spring feed. Quality breeders ewes that will become increasingly hard to secure given the position of the kill market and the amount of young females still going to the processors. Ewes were drafted then assessed with sample ewes weighing 48-75kg after a +12 hour curfew. Highly fertile ewes from a flock that are scanned annually with the dries removed from the breeding enterprise. These ewes come highly recommended and have been purchased by repeat buyers in the past.
