| Assessor Comments                     | A line of young merino ewes that have never seen a ram, These ewes are in the prime of their life with all their future in front of them. Ewes have been classed in with a tail removed. These ewes are based on connnewarren bloodlines for the last 14 years and have produced nice bright wool with the average flock weights around 4.5-5 kgs. Ewes have all been mulesed. These ewes do not usually have the opportunity to come on the market but due to a change in the farming practice these ewes are on the market. Ewes are highly recommended and will not disappoint. Ewes will crutched prior to delivery with the fresh green pick starting to go some of them***. Please note vendor has another 235 ewes in this auction so a chance to put a great line of ewes together. |      |               |     |
