Assessor Comments	Baldry and Sons are offering the entire classed in drop of 710 6 y/o Primeline ewes, 560 and 150 as a run out of the gate. The ewes have been thoroughly mouthed and their udders checked for any faults. They have recently had their May drop lambs weaned off them and should improve condition on growing improved pastures. I believe that this a very good opportunity for a new entrant into the Primeline breeding program or a great addition to any existing one. There are many years of classing and quality genetics in these ewes,.. they will be a great investment in an industry that looks to have a very strong immediate and mid term future.
