Assessor Comments	A quality line of pure Wanganella blood ewes that have their whole lives in front of them. Ewes are on a rising plane of nutrition and should join up well if given the opportunity. Ewes are 17-18 months old, NSM, mlsd, Jun shorn, drenched & vacc so all the hard work is done. The vendor has been on Wanganella for many years and selects rams from the pointy end of the grade rams and selects for a good frame with a good productive skin. At assessment ewes had a weight range of 48-71kg to avg 59.8kg. Top quality ewes to suit a Merino or xbred breeding operation. Vendor has 150 1st X ewes in the same sale.
