Assessor Comments	Excellent line of Glenwood blood Ewe Lambs that are showing great frame and structure for 12 Months of age. These Ewes are bred out of medium to large frame SRS merino ewes that consistently have lambing percentages of 130-140% to ewes joined and produce early maturing progeny with wether lambs meeting export weights at 10 Months of age. W&R Mann recently received the 2025 GLQ Score award at Gundagai Lamb for their wether lamb portion. They have been consistently buying the top end rams at the Glenwood sale for the past 15 years. These ewes are extremely early maturing, fertile and free growing ewes with a big emphasis on structure within the breeding flock. Ewes were individually weighed 47-71kgs at assessment to ensure all ewes are ready to be joined. Please call for further information.
