Coleraine Stn is a multigenerational merino flock, with emphasis on both wool and carcass traits. A self replacing flock, being bred to thrive in pastoral, Far West NSW. These ewes are the top of the drop, and shown feed, will grow into an impressive line of productive ewes, suited to both self replacing, and terminal breeding enterprises. These ewes present as August shorn, 39 kg live weight, mulesed and tail stripped, NSM & Old Kelvale blood. A fantastic opportunity to secure a large run of young ewes, ideal to join later in the season. Please observe that the vendor has multiple lines, in various age groups, of classed in breeding ewes, which are also on offer in this sale as part of their flock dispersal.
