Comment on Fat Score 1 Sheep

Ewes are strong and fit to travel.

Mulesed

No

Shearing Info

Shorn 03 Sep 2025 Not Crutched

Wool Length

100% 0 - 0.25"

Majority Length

0 Millimetres

Degree Burr

Very Light Type: Bathurst(Only present in very small % of mob since shearing)

Degree Seed

None Observed

Wool Cut

Year 2024 Result 4.5 kgs

Micron Test

Year 2025 Result 24 micron

Yield

Year 2025 Result 67.5 %

Shedding Breed Contact

No known contact with shedding breeds

Skin Comment

Ewes are generally well shorn.

Wool Comment

Burr best described as present only in very small percentage in group on their heads post shearing and often hard to clearly see. Though does grow in vendors country

Vendor Bred

Yes

Stock History	Vendor has been utilising Kelso Composite genetics since 2018 with the main objective of breeding moderate framed ewes with good fertility and a finer micron wool. Vendors wool results attached		
Bloodlines	Kelso Composite genetics.		
Grazing Conditions	Fresh improved pasture Returned same		
Introduced Sheep	Rams Only have been introduced onto the consignment property in the last 5 years		
Footrot	All consigned sheep are from a flock that is free of Virulent Footrot Consigned sheep are from a flock that is NOT free of Benign Footrot or Scald Further Information: Scald can become prevalent in wetter years. As a result foot bathing takes place as a management practice when required. Feet were not inspected at assessment		
Lice	All consigned sheep are from a flock that is free of Lice		
Scabby Mouth Vaccination	100% of this consignment have been treated with a Scabby Mouth Vaccination prior to sale.

	Drenched	28/08/2025	Trifecta
Health Declaration	A National Sheep Health Declaration will be provided at Delivery AT BUYER REQUEST		
JD Approved Vaccinates	Sheep are JD Approved Vaccinates. Vendor has been continuously vaccinating all retained lambs in the flock for 20 years		
Vendor Comments	Dispersal of our 1st X ewe operation to focus on our Poll merino enterprise. Ewes have been a valuable asset to our program with their finer micron wools and sound fertility traits.		
Joining Details	Not Station Mated		
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.		
Assessor Comments	Well bred line of 2023 drop NSM 1st X Composite ewes. Representing the youngest age group of vendors 1st x Ewe dispersal. Ewes were all scanned in lamb this year and have recently had lambs weaned from them. Ewes were shorn early September, are really starting to respond with the change in the season, and will be an ideal article to join late spring if required. Ewes are predominately medium frame as a group with the odd large framed female throughout. Vendor has been on Kelso genetics since 2018 and has produced sound breeding results with utilising program with all ewes being joined to Poll Dorset sires annually. 2nd x progeny of these ewes generally finished for domestic markets. Vendor offering a total of 1215 in this dispersal. Ewes carry a clean bill of health and stand in forward store to slightly forward condition. Very small percentage of ewes appear to carry a light mulse(sub 4%). Please call for further information.		
Assessor	Cam Rosser (Level 1 Accredited) Phone: 0429 218 962		
Delivery Period	25/09/2025 to 25/09/2025 (1 day)
