Assessor Comments	Outstanding line of vendor bred ewes in their absolute prime, being august 2021 drop. Genuine reduction and sale of complete yellow tag breeders. Only being sold to reduce sheep numbers on the property for more cropping. These sheep present in very good condition and are proven performers, with the Pfitzner family marking 135% lambs from the XBred portion and 120% from the merino lambs through a tough summer/autumn. They had their lambs weaned on July 7th and were shorn last week. All dry ewes were sold at scanning. Please note all tags were from a bad batch and all ewes will be retagged, photos attached.
