Assessor Comments	224 M/J 2021 drop East Bungaree blood NSM merino ewes. These ewes are very well bred, have proven to be fertile in an extremely dry year and cut a power load of bright - white, deep crimping clean merino wool. Not mated, large - framed breeding ewes that present in strong store condition ready to join to the ram of your choice. **Please note - Due to a very hard couple of years with minimal rainfall and limited feed - some ewes present as roughly shorn due to a break in the wool close to the skin. Ewes present an excellent opportunity to put on some feed as they grow into bullocks. Mouths are sound, ewes are strong and ready to go. **Also please note - Vendor presents an excellent line of 2020 drop ewes for your competition up for sale here on Auctions Plus as well. Both lines put together make up a B-double load.
