Assessor Comments	This is a fantastic opportunity to purchase a B-Double load of Ridgeway Advance blood breeding ewes. These ewes represent a vendor loss and purchaser gain due to the loss of agistment. They are being offered as a 'run out the gate' selection from a larger mob of 1,170 ewes, with the assessor having carefully split the age groups evenly to provide buyers with peace of mind. These ewes scanned at 131%, and weaned at 103% just five weeks ago. They were shorn on 25 August 2025, average fleece cut of 3.8 kilograms at nine months of age, with a wool micron averaging 17.9 across the mob and were treated with Maverick off the board. These ewes present a perfect opportunity to spring join to a ram breed of your choice and enhance your flock's genetics. Buyers should note there are some ewes within the mob showing signs of grass seed-affected eyes.
