Assessor Comments	Buyers on offer is the second draft of the Harvey Oxford maiden First Cross ewes. These ewes are 100% scanned empty for buyer confidence and ready for the successful purchaser to take home and join to the ram of their choice. Previous purchasers of these ewes have noted tremendous fertility and ability to wean off an early sucker at kill weights. These young ewes display excellent growth for age average 56.5 months Kgs at assessment. Ewes have all been Gudair vaccinated and also mulesed. Buyers please note that there is a lead draft of 230 head and a third draft of 210 head giving an excellent opportunity for a purchaser to put together a line of 670 one mark maiden first cross ewes. Purchasers can bid with upmost confidence. Please contact with any questions.
