Assessor Comments	Buyers, on offer is a neat group of 80 NSM 1st Generation Primeline 'Crusader' (shedder) ewes. Ewes were purchased as one-mark ex Waterloo Partnership, Narromine as S.I.L ewe lambs. Ewes exhibit fantastic Primeline maternal characteristics being moderately framed yet displaying great body capacity, muscle and volume. Ewes present in predominantly forward-store condition. Comment must be made of the ewes body condition post weaning, having only had their lambs weaned off 14 days prior to assessment, proving their ability to maintain condition whilst rearing lambs in tight seasonal conditions. Ewes are sired by Primeline Crusader (shedder) rams by Primeline maternal ewes. Ewes had remaining wool shorn off 10 days prior to assessment for presentation purposes and to be treated (jetted) with 'Extinosad Fly & Lice'. An excellent line of young, functional, maternal shedding ewes ready to perform. Scanned empty for buyer satisfaction,
