Assessor Comments	A neat and tidy line of 124 breeding ewes. 2021 and 2022 drops, mts, nsm. The vendors are well known for their quality wool production. They are ideal all purpose ewes that can also rear a xb lamb. They will present as good medium frames in generally good forward condition. They are generally fat score 2's and 3's, with the odd lighter condition ewe in the mob. They are July shorn, and have been mts. They have been scanned as empty, just as a guarantee, even though they have had no access to rams. A number of these ewes showing signs of dirty behinds, and will be crutched prior to delivery. Please take note of the comments regarding trucking out, which can be found in the delivery section.
