Assessor Comments	Commercial Ewe Lambs. Twin Peaks have been breeding shedding sheep for 18 years and have been on Sheepmaster parent stud bloodlines for 8 years being one of the first growers to adopt them on a commercial scale now running between two and three thousand ewes. In the last five years they have moved into ram breeding program and have sold ewes on a number of occasions that have formed the basis for stud nucleus flocks. This flock has been closely guided and classed by Niel Garnett the founding breeder of Sheepmasters. These lambs are of high commercial quality and will produce high quality balanced shedding sheep. These lambs have been bred out of 100% shedding ewes. Twin peaks are pushing the commercial traits mating the ewes as lambs with excellent results. They are achieving excellent carcass results from all major processors.
