Temperament

Yards	Crush	Paddock
Quiet: 62 head Slightly Stirry: 8 head Stirry: 2 head	Quiet: 56 head Slightly Stirry: 12 head Stirry: 4 head	Temperament not assessed in Paddock

Steers are easy to handle in a very good set of yards. There are a few that become stirry when in a confined space and exit the crush quickly. There is every possibility the odd steer could become aggressive if isolated in a confined space. They do need to be steadied through gateways and spook easily if you move quickly around them. Like all mobs there are always ring leaders that have a negative impact on the balance. Best handled by experienced cattle handlers and in a quiet manner.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes
Assessor Comments	Buyers, a 2-deck lot of EU ACCREDITED and CERTIFIED ORGANIC steers that show good weight for age. These steers present in mainly store condition and are just starting to clean up in the coat so I would expect very good compensatory gains to be achieved on improved pastures, crop or winter herbages. These had a 20-hour curfew prior to assessing so considered reasonably empty. They suit all organic backgrounders to take to heavier slaughter or feeder specifications. There is also a B-Double of heavier, slightly older steers and a double of surplus heifers that can be purchased as well.
