Temperament

Yards	Crush	Paddock
Quiet: 54 head Slightly Stirry: 8 head	Quiet: 47 head Slightly Stirry: 14 head Stirry: 1 head	Temperament not assessed in Paddock

Heifers were basically very good to handle in the yards and crush. Like all cattle they just need to be steadied through gateways etc. There are a few ring leaders that do tend to trot about out in the bigger yards.

Handled With: Dogs , Horses

Notable Traits

	Traits
2 Head	Light warts on face
1 Head	Stumpy tail

Assessor Comments: Buyers a two-deck line of heifers best described as Composites (mainly the colours out of the line) bred out of crossbred cows. These would suit restockers to background to heavier feedlot entry weights or heavier again as an MSA domestic slaughter heifer off improved pastures. Could also be used to breed with if required. The heifer mouthed as a 2-tooth is only just cutting them now. All mainly 'flatback' types with limited content in them (see photos/video). They look to be on the move, and I would expect these to really hit their straps once they get onto some good fattening feed. Please note there are two lines of heifers in this sale from the same vendor. All guaranteed for clean country entry and will scratch clean on farm. Buyers looking to transport interstate will still require stopping to dip at Rolleston on the way through at their expense. If in doubt, please call the delivery agent for further clarification.
