Temperament

Yards	Crush	Paddock
Quiet: 50 head Slightly Stirry: 7 head	Quiet: 50 head Slightly Stirry: 7 head	Temperament not assessed in Paddock

Steers were a please to handle. They had to come through the draft and weigh box to be drafted and assessed twice and flowed very well both times. please note the animals noted as slightly stiry were only assessed that way when they were isolated or pressure was applied either in the rush or in a yard, they quickly steeled once released.

Handled With	Bikes , Vehicles
Assessor Comments	Buyers, here is your opportunity to secure a very good quality line of Angus cross weaned steers. The steers stand on very good bone and show fantastic length and weight for age. They have a live weight range 227kg to 330kg and an average weight of 271.6kg after a 3% delivery adjustment, please note there is only 1 steers in this lot over 300kg the balance are from 227kg to 300kg. These steers would be ideally suited to background and grow out to target the heavy feeder or slaughter markets. These steers have had all the hard work done and are powering ahead on the oats, they will continue to power ahead if given the opportunity of good feed. Buyers, note that a 3% delivery adjustment as been used as the cattle had to come around twice, once to be drafted into their lines and again to be assessed after already being in the yards for 4 hours off feed and water. Please note the vendor has another 3 deck line of weaned steers and two x 2 deck lines of weaned heifers in the same sale.
