Assessor Comments	Buyers, here is your opportunity to secure a very good quality line of Angus cross weaned steers. The steers stand on very good bone and show fantastic length and weight for age. They have a live weight range 300kg to 435kg and an average weight of 333.7kg after a 3% delivery adjustment, please note there is only 11 steers in this lot over 380kg the balance are from 300kg to 380kg. These steers would be ideally suited to background and grow out to target the heavy feeder or slaughter markets. These steers have had all the hard work done and are powering ahead on the oats, they will continue to power ahead if given the opportunity of good feed. Buyers, note that a 3% delivery adjustment as been used as the cattle had to come around twice, once to be drafted into their lines and again to be assessed after already being in the yards for 4 hours off feed and water. Please note the vendor has another 2 deck line of weaned steers and two x 2 deck lines of weaned heifers in the same sale.
